

ARD Solutions

AI-POWERED SOLUTIONS

Smarter factories. Smarter health. Powered by AI.

ARD Solutions builds AI platforms that turn machines and data into clear, real-time insight for factories and healthcare.

What We Build

Shopfloor 360

AI

Digitize your entire shopfloor and track OEE and production in real time.

Energy Sense

See where your plant uses energy, and cut waste with live monitoring.

Factory Vision Quality AI

Video-based AI analytics that improve quality and productivity across your smart factory.

Radiology Co-Pilot

AI

AI that assists radiologists with X-ray and CT reading and report generation.

Smart Machine Retrofit

AI

Give your legacy factory machines a digital transformation, with automatic test reports.

HealthSense Ring

AI

Track your health daily, with AI insights to understand your own body.

Real-Time Data

AI-Driven Insight

Scalable & Secure

Custom-Fit Solutions

Partnering for Success

ARD Solutions is committed to partnering with CXOs across industry to achieve their goals — with customized, AI-powered solutions, expert support, and ongoing innovation that drives efficiency, productivity, and sustainability.
